Who we are:

NUWAT - Social Solidarity Centre is a Lebanese non-governmental organization, established by the beginning of 1998, registered at the Ministry of Interior Affairs and Municipalities as grassroots independent NGO on June 19th, 2009, license number 989.

Basically, "Nuwat" operates in the Palestine refugee camps, gatherings and all-around Lebanon mainly focusing on vulnerable groups.

Nuwat mainly focuses on advocacy, social works, medical and educational support, and assistance to the helpless and the marginalized groups equally and neutrally.

Services are offered within systematic methods through projects implemented by Nuwat, or in coordination with other local authorities and NGOs for benefits of targeted groups based on their needs analyses.

Vision: Nuwat is a pioneer association that offers socio-economic and educational services for the marginalized groups in Lebanon, centred on partaking, equity, and human rights.

Mission: Working on developing the Palestinian community in the camps and surroundings in social and economic context by raising the level of academic and vocational education, reducing school dropouts, illiteracy. Also, raise health and cultural awareness through implementing various activities targeting youth, women, and children in particular and empowering young people within their community in order to participate in decision-making through advocacy campaigns and initiatives.

Our Values

Dear Members and Beneficiaries

As we reflect on the year 2022, Nuwat faced formidable local and global challenges, particularly in Lebanon. The economic crisis, with over 80% of the population below the poverty line, the collapse of the lira, and the ensuing instability in exchange rates profoundly impacted various sectors, making livelihoods a pressing concern for many.

Adding to these challenges were the lingering effects of the COVID-19 pandemic, global supply chain disruptions, natural disasters, and the ripple effects of the Russian-Ukraine war. Nuwat, too, was not immune to these factors, necessitating a re-evaluation of our policies to adapt to the changing landscape and ensure the continued delivery of services to our beneficiaries.

In response, our management, in collaboration with the board, has developed a robust three-year strategy outlined in the 2022-2024 Corporate Strategy. This strategic framework not only addresses the immediate challenges but also lays a solid foundation for future success.

Our focus remains on strengthening our offerings to meet the evolving needs of our beneficiaries, fostering transformative partnerships with stakeholders, and ensuring reliable and effective operations. While implementing this strategy will require concerted effort, I have full confidence in the Nuwat team's ability to bring it to fruition.

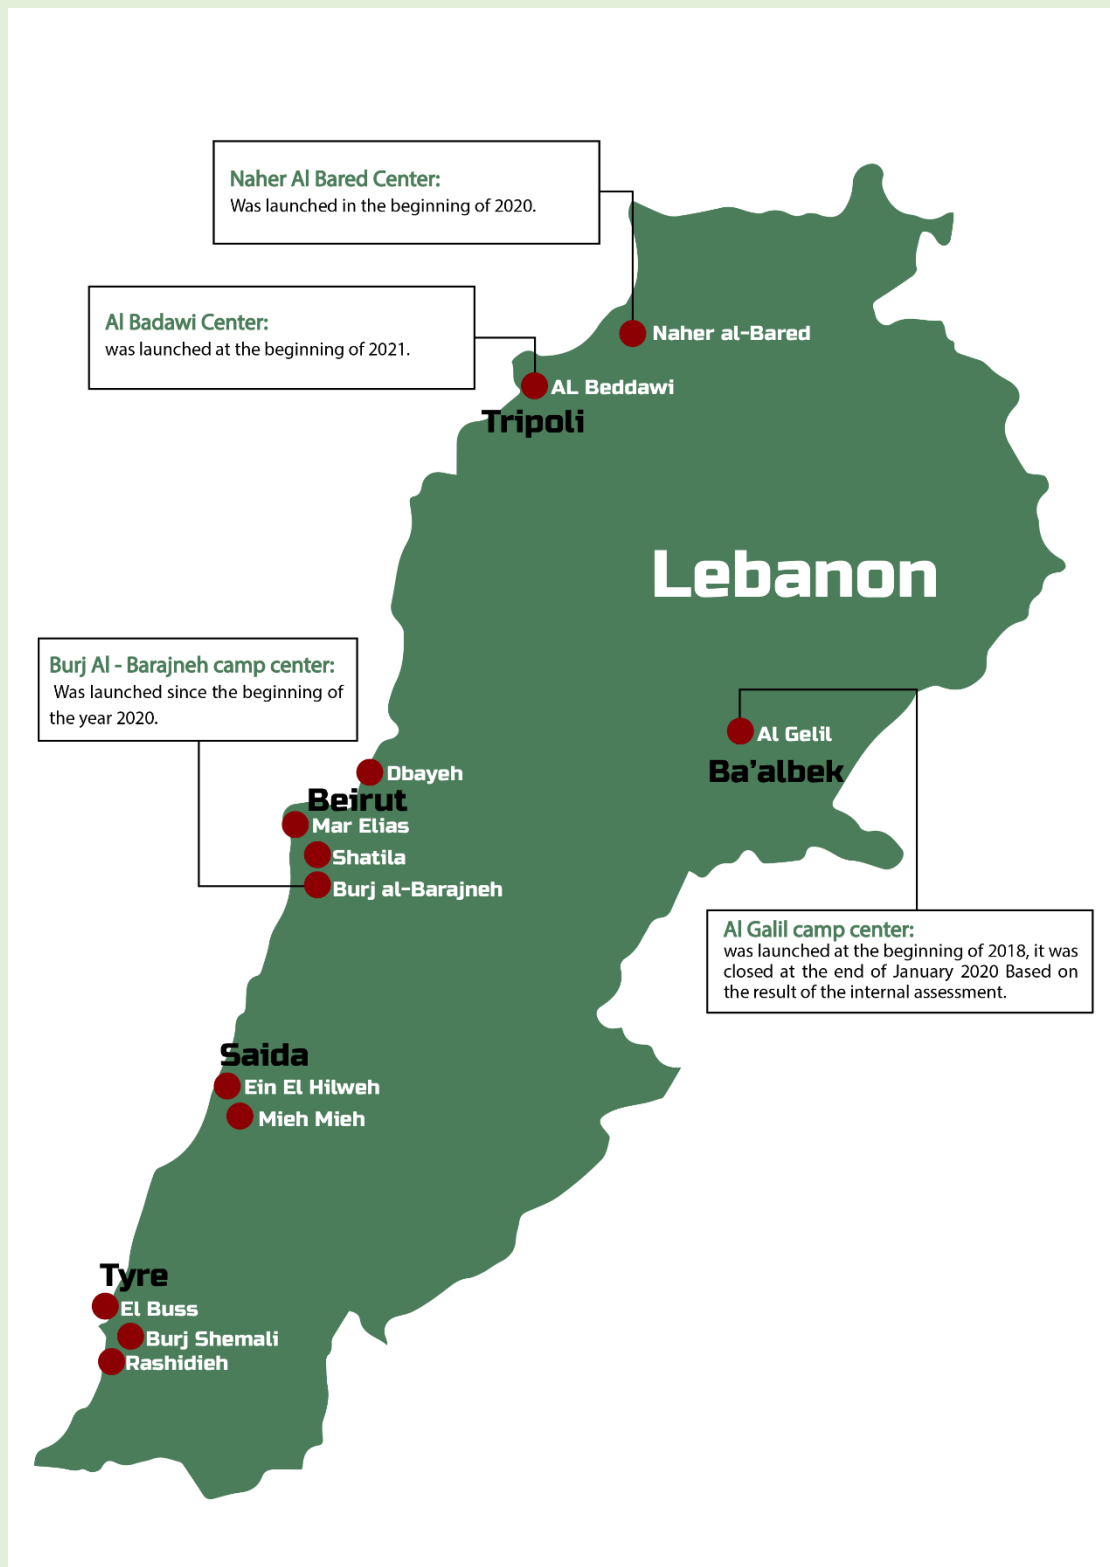

I extend heartfelt gratitude to our members and beneficiaries for their unwavering support and valuable input that has shaped our strategy. Your insights will guide our endeavours in the coming months and years. Special recognition goes to Nuwat's dedicated employees, volunteers, and the executive administration committee for their commitment to our values and balancing the needs of today with strategic planning for future success.

Sincerely,

Adel Abou Salem

Executive Director

2022 PROJECTS

NEW BEAM OF LIFE PROJECT

ALTERNATIVE SCHOOL PROJECT

Violet HOME PROJECT

REFUGEES RIGHTS YOUTH DEFENDERS
PROJECT

First: Health care project for pregnant women "A new beam of life" Project

Since November 2005, New beam project has been performing for pregnant women and early birth children under the name of "New Beam of life" with funds from one of Spanish associations.

the program includes covering the cost of consultation and pelvis US (ultrasound) for women who have risk during their pregnancy, in addition to covering the cost of Normal and Caesarean delivery and following up of new-borns in Paediatric intensive care and that without preference or discrimination, with priorities to those who are not able to benefit from free services providing by UNRWA or those who have problems with their identity and legal documents especially who are displaced from Syria during Syria war.

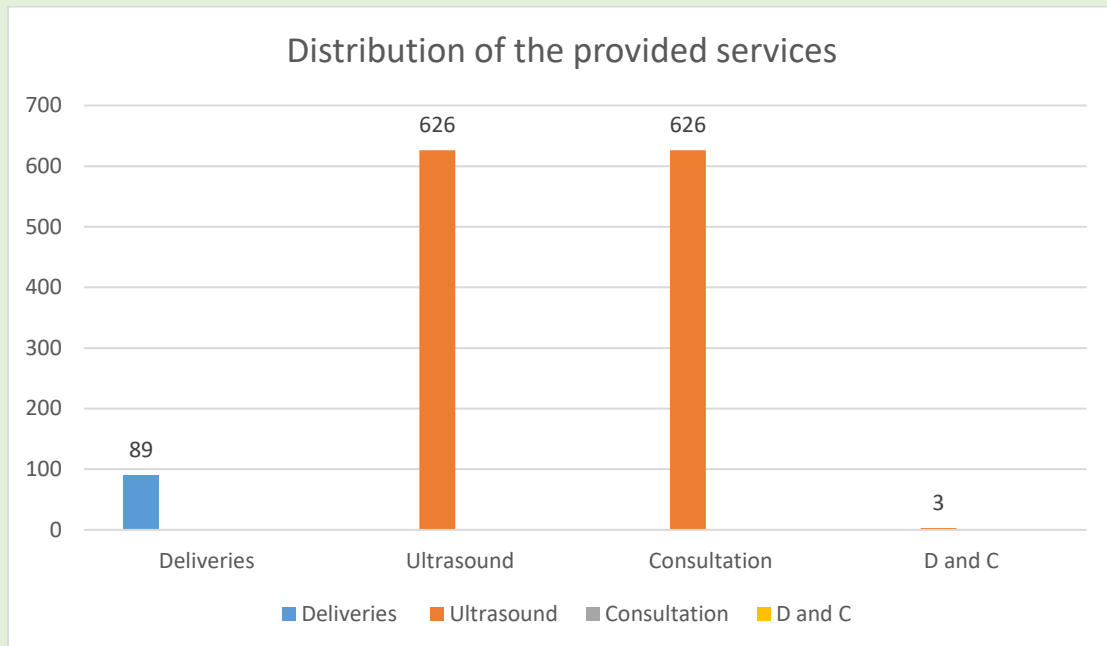

The provision of health support is accompanied by launching a health awareness campaign to reduce the level of birth at home to avoid any maternal and child death and prevent infection of children from contracting chronic diseases after birth. in addition to health- enhancing and sex education for young girls in the camp. and that through providing monthly awareness sessions for project beneficiaries and for the whole community about pregnancy, risks during it, and the importance of medical cares during this period .in addition to publishing electronically various psychological, health, and nutritional posters for pregnant women with the aim of educating, awareness, and guidance.

In 2022 and based on studying the needs of the local community and as result of the current economic situation, Nuwat association advanced and expanded the project services in agreed with the funded association to includes after birth services for both women and their newborn babies in addition to the psychological services.

Achievements of the project in 2022:

The project provided **790 services for 428 women.**

The services during pregnancy were distributed to:

While the deliveries (89 deliveries) were as shown in the below Pie chart:

while after-Birth services were:

Distributions within the project:

- ✓ 89 kits were distributed for every child delivers within the project which contain the main and basic needs for them and for their Moms .
- ✓ 459 supplementary milk cans were distributed for kids who need for this support and this was after 6 month from their birth as nuwat association supports the breast feeding for the benefits of both kids and their moms .

Social media campaigns:

During this year Nuwat association launched two social media campaign:

- ✓ For " Safe motherhood campaign " that been lauched from the begining of the year that contains a series of posters about breast feeding , eating disorder , Anemia and How It Affects Pregnancyetc and other medical topics.
- ✓ "Pink October" campaign that been launched on 29 September, 2022 and it ended in 15 December, 2022, and it included publishing videos and posters on social media(8 awareness posters and 1 video about breast cancer), and 9 awareness sessions targeted 130 women, distributing awareness flyers, in addition to benefiting 100 women (aged years old and above or between 20 to 40 but with a family history of breast cancer) from **Mammography and Breast ultrasounds**.

Psychological services:

Our psychological services include Group and common psychological session for sharing experiences in pregnancy and getting birth, individual sessions for women in needs for psychological support, psychological awareness sessions and Psychological and entertainment activities.

Second project: Violet Home project:

For third consecutive years, Nuwat association has implementing the Violet home with the adolescent Refugees girls in both camps (EEH and Naher al Bared camp) under the aim of protecting the rights of girls and adolescent in Lebanon in line with S.D.G no 5 "Achieve gender equality and empowering women and girls "and with funds from Group of Spanish associations.

This report is covering the project result and output of period between beginning of October 2022 to the end of September 2023.

Achieved result at the end of the project:

Result one: Girls are looking for more confidence, improved their personalities, and they became oriented toward their identified and preferred goals, and at the same time they showed improvement in their educational capacities and skills.

Result two: the girls became abled and skilled vocationally, and they are looking for the suitable opportunity to practice their job and to participate effectively in the economic life.

while we can record the real result of our intervention in the following cycle, as these girls were graduated exactly at the end of the project, but we will keep continuing our contact with them to record results and challenges they faced which will ensure development our plans effectively for the next periods.

Result three: girls themselves were involved in the changing process and we recorded a little change in their peer's behaviour and some of them successfully affected their parents' thoughts toward our goals. Changing process of the diverse cultures required hard work and long run time.

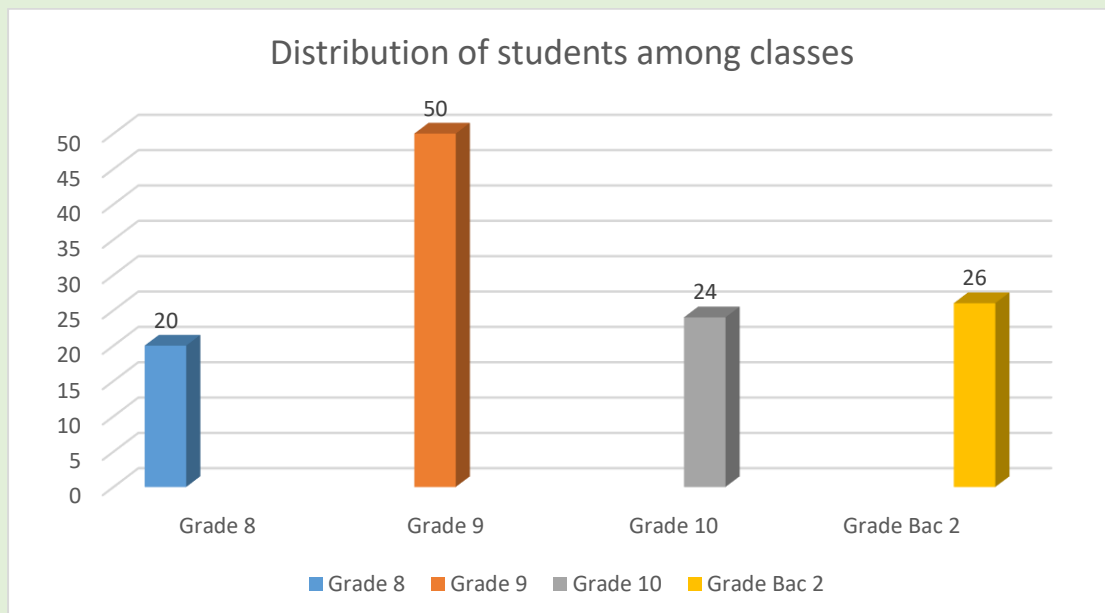

Result four: The community has become more able to accept and discuss issues related to women and girls, however, it is still unable to free them

from the stereotype image imposed by customs, traditions, and conditions of asylum and immigration.

These results were achieved through the following Activities:

A 1.1 Providing a support education for 90 girls in grade 8 to grade 12.

We targeted the students in the middle educational level, high school students and official certificate students, where 120 girls benefited from service provided in this activity in both camps, which means that we targeted 33 % more than the number of the beneficiaries planned in the project.

A 1.2 Providing Alternative education for 60 girls who were dropped out from their schools at early age.

The girls in this activity were selected based on the following criteria:

- 1- girls between 12 to 21 years old, left school at an early age or left schools at least 2 years, and needs to improve their reading and writing skills, and that without any discrimination based on their nationalities or reason for leaving schools.

- 2- Living in the targeted area (EEH and Naher El-bared camps) and their surroundings.
- 3- Ability and willingness to adhere to all project terms and activities.

During the first cycle of the project 64 girls from the alternative education classes graduated.

A 1.3 implementation of 50 psychological session (40 individual sessions and 10 Group sessions

- 12 General sessions with girls were implemented from the first of October to the end of the project .
- 2 General sessions with parents were implemented from the first of October to the end of the project. Where the subject of the session is based on problems and issues that the girls talked about in their group session, or other general topics.
- While 21 girls out of 64 were followed in the individual sessions based on the observation done by both of psychologist, social worker or even the teachers.

A 1.4 implementation of 6 awareness session and 12 life skills activities.

13 life skills activities were implemented about various topic like anger management, say no, healthy relationships , self esteem etc

A 1.5 implementation of lobbying and advocacy training for 20 girls

Various topics were given in this training with 41 girls from the drop-out girls to empowering their mobilization and advocacy skills and enhance their abilities to refuse any issues may affected their future and defending for their rights and changing the stereotype of the community toward female.

and 56 % of the girls enrolled in this activity improved their mobilization skills at the end of the training.

A 1.6 implementation of a course in computers and networks for 40 girls and teenage girls who have dropped out of school.

64 dropout girls developed their skills in using the software programs: excel- Power Point-word - internet and web browser through using Tablets on weekly basis and as part of their educational program.

A1.7. enrolling 50 girls and teens in the fitness club.

This activity was implemented during the week as part of the students' weekly schedule.

During the weekly plan preparation, the teachers in coordination with the project coordinator decide whether this activity will be in the fitness club or outdoor activity.

A1.8. implementing a library activities.

This activity was implemented each week as part of the students' weekly schedule.

This Activities includes:

- Reading stories and practicing telling stories through puppet theatre.
- Use of tablets for the educational programs of the Breteau Foundation.
- Using the Internet by viewing educational videos.
- Acting the stories they read .

2.1 securing scholarships for female students of alternative education in vocational institutes in major chosen by girls themselves.

18 girls benefited from the scholarship provided through the project, these students were chosen based on the educational capability and personal characteristics and based on the result of various tests implemented by the social worker, psychologist, and the project coordinator.

The vocational courses were chosen by the girls themselves with discussion with their parents and the contracted vocational institutes, where the course continued for 3 consecutive months ended with the end of the project third cycle.

A 3.1 Providing 60 food ration for the most vulnerable families of girls.

through the accumulated experience on working and implementing various educational projects, we can emphasis on the major role of the economic situation of the refugees in increasing the rate of girls' school dropping-out and the rate of early marriage especially after the Syrian crisis and displacing of large number of families to camps in Lebanon.

What distinguishes this project is that it is designed to be an integrated project to contribute to dealing with all reasons (social, psychological, cultural, and economic reasons) of non-continuity of girls in the educational process.

The issue of students dropping -out from their schools became more worse with the beginning of the Lebanese economic crisis since the beginning of 2020.

For that, the project included distribution of monthly food rations for the girl's families (60 families) enrolled in the project as part of Nuwat contribution to decrease the impact of this crisis on their daughter's education.

A 3.2. implementing 12 awareness sessions for Moms (Psychological, social, rights sessions)

12 awareness sessions were implemented with Moms about various issues related to their daughter about: Enhancing trust between them and their daughter, Empowering girls in society, violence against women, Early marriage ...etc

Where 88 % of the participated parents benefited from the presented information during these sessions.

A 3.3. Family activities: setting up a plan of recreational activities with the participation of girls and their moms.

3 Outdoor and common activities were implemented from the beginning of the project till it ends.

No .	Geographic area	Date	Where	Participants
Trip 1	EEH Branch	12/11/2022	Al Reaya Garden	76 participants (girls and their moms)
Trip 1	Naher - Al Bared Branch	9/11/2022	Ouyoun El Samak River	34 participants (girls and their moms)
Trip 2	EEH Branch	17/5/2023	Melita	86 participants (girls and their moms)
Trip 2	Naher - Al Bared Branch	20/3/2023	Al Ariz	34 participants (girls and their moms)
Trip 3	Naher - Al Bared Branch	22/8/2023	Al Had River	34 participants (girls and their moms)
Trip 3	EEH Branch	23/8/2023	Kasmeya River	86 Participants (girls and their moms)

A4.1. Launching awareness campaign to promote gender equality and reduce the rate of early marriage among girls.

It is an online campaign entitled (It is Her Right to Learn or You Will Regret), which aims to raise awareness of the dangers of early marriage and encourage girls to learn, it was launched on 25 of November 2022 on "International Day for the Elimination of Violence against Women" and it continued to the end of March 2023.

The campaign includes 12 awareness posters, 13 videos and real stories. With maximum average reach 1000.

A4.2. Awareness and impact meetings with the social and political actors in the camps

A series of meeting with the local decision makers and people works in educational department in Ein El-Helweh camp and Naher al Bared camp aimed to discuss the impact of the current economic crisis on the continuity of students in the educational programs, especially girls.

In addition to discussing the relation between both school drop-out and the early marriage issue and vice versa, and the challenges females face within the community as result of the customs, tradition, and poor security situation in camps.

All agreed about the importance of teaching girls to save themselves and building an educated and cultured generation.

This meeting with the campaign implemented within the project considered as step toward creating a lobbying and advocate group to defends the girls' rights issues.

Third project: Youth defender project

It is part of the seeds of independence program, that drawn in 2017 during the conference implemented in Sweden, it became in progress since April 2018. With fund from both Bjorka Frihet and Forum syd.

Seeds of independence program are implementing in:

It is two years' project, started at the beginning of 2021 and ended at the end of 2022, and it is works under the following overall Goal:

A Progressive and Vibrant Palestinian civil society unified in its struggle for self - determination, Justice, and equality.

In this project we are working on two dimensions:

Note: in this report we present only the output, indicators and activities implemented only in 2022, which mean we will not report all the outputs, indicators, and activities since they began of the project.

First one: improving the capacities of NUWAT association through:

1- Improving the internal capacity of the association .

Nuwat association in contraction with Golbal Golden Group issued the second organizational assessment for the whole association (firt assessment was in 2018 at the begining of seed of independence program).

Where based on the result of this assessment, the administration of Nuwat association decided to implement series of training courses for its staff, you can find all the details about the capacity building of the staff in the second point below.

Note: The assessment report will be attached in this report.

2- Improving the employees capacities.

As results of the assessment report at the end of June 2022, Nuwat started officially its capacity building training for it staff in contraction with AUB university (CEC academy), the training targeting 17 member (13 Female, 4 Male) including administrative members, where the training topics and based on the assessment result was as follows:

- Advanced Human Resource Management (A-HRM)
- Applied Project Management Professional (A-PMP)
- Monitoring & Evaluation Certificate - Internal Auditing
- Organizational Leadership challenge in the 21th century
- Organizational Strategic Planning (OSP)
- Public Relations Management (PRM)
- Total Quality Management (TQM)
- Business Analysis and Business Models creation
- Project Feasibility studies (Functional-Marketing-Financial)
- Marketing Tricks in Digital Business Innovation

At the end of June 2022, Nuwat started officially the capacity building training for it staff in contraction with AUB university (CEC academy), the training targeting 17 member (13 Female, 4 Male) including administrative members.

As a result, 59 % of the staff strongly agreed that the course been covered its objectives, and 37% agreed about that, while 4 % of the members did not decide their point of view.

And 64 % of them strongly agreed that through the course they learned something they considered valuable, 32 % of them were agreed also about that, while 3 % of the members did not decide their point of view.

At the same time, Nuwat staff implemented a series of internal trainings for each sharing experiences and knowledge.

Titles of this trainings:

- ✓ press release and social media.
- ✓ How to produce a journalist report
- ✓ Project management

- ✓ Find and get public funds.
- ✓ Photographing
- ✓ Video editing
- ✓ Video filming
- ✓ Graphic design
- ✓ Social media

3- Improving the financial control:

In 2022, we upgraded our accounting software according to the following steps:

1st adding payroll, stock & assets module to the accounting software (Noria ERP).

2nd step added the employee's data to the accounting software with budget allocations.

3rd steps open Users for NUWAT branches and set up the administrative permission for each user.

4th step uploaded the software to EDM servers and connected all branches (users) to the accounting software remotely through the cloud.

During the coming periods, training will be conducted for selected employees in the branches on how to operate the accounting Software.

4- Developing and writing policies of the association:

In this Year, Nuwat administration updated its internal policies in coordination of the branches coordinators and the administrative committee.

second one: improving the capacities of youth (Palestinian, Lebanese, Syrian) and aware the local community and that through:

1- Implementing training course about the international law and Palestinian refugee's rights in Lebanon.

this indicator was Implemented and reported in 2021 , please check 2021 annual report to get a further information about this indicator

2- Implementing training course about on employing social media for advocacy and lobbying campaigns .

this indicator was Implemented and reported in 2021 , please check 2021 annual report to get a further information about this indicator

3- Creating network form the participants in the above trainings and another youth .

The network was created in 2021 of 19 members (10 Female, 9 Male) from the participants of the two-training mentioned above.

They implemented a series of online and offline meeting to identify the social media campaigns tittles, drawing the campaigns strategy, identifying role of each member in the campaigns, and evaluating the progress and impact of these campaigns.

4- implementing Activities related to rights:

- Two awareness sessions under title "The concept of gender and women's rights" and targeted 22 girls and women in both EEH and Naher El-Bared camp.
- 5 awareness sessions under the title "The current UNRWA crises and its repercussions on the Palestinian refugees in Lebanon" were implemented in cooperation with women popular committees in EEH, where these sessions targeted 109 women.
- Series of social media video and posters related to the Palestinian issues.

- awareness session was implemented in coordination with The Norwegian Refugee Council organization - NRC under the title "Lebanese Labor Law and the Status of Palestinian Refugees" in which they explained the right of palestinian refugees to work.
- In cooperation with the psychosocial support program in Bissan High school- UNRWA and Palestinian Haf, we revived the World Day of

Solidarity with Palestinian people in the presence of 56 student (30 female and 26 male) and that through the implementation of the awareness sessions, competition and photo gallery that been collected from the Palestinian photo competition.

5- Awarig the local community about their rights through implementing awareness sessions and social media campaigns:

Day / Date	Area	Tittle	No. of attendees		
			Total	Male	Femal e
Friday 18-2-2022	Borj Al Barajneh center	The Rights of Palestinian Refugees between the Constitution and Implementation	28	14	14
Saturday 26-3-2022	EEH center	Clash in the face of confusion	17	10	7
Wednesday 21-9-2022	Badawi Center	The Right to Work for the Palestinian Refugee	28	8	20
Saturday 19-11-2022	Badawi Center	The right of Palestinian youth to participate in political life	23	10	13
TOTAL			96	42	54

Social media campaigns:

Four social media campaigns were implemented during 2022:

First campaign: was under title of "Right to live with dignity" and it started on January 4th, 2022, and continued for 3 months.

Second campaign: was under title of "Right of return". and it started on beginning of April to the end of June.

Third campaign: was under title of "Palestinian right of work". and it started on beginning of July to the end of September.

Fourth campaign: was under title of "right of political participation for Palestinian youth"._and it started on beginning of October to the end of December.

These campaigns included publishing a series of videos, posters, infographic on our social media platforms, in addition of implementation of series of activities.

All these materials were seen by 6364 people on our Facebook page, 68% of them are women while 32% are men.

Fourth project: Alternative school project:

With the beginning of September 2021, Nuwat started the scholastic year of this project that ended at the end of October 2022 with fund of Italian associations, the project has been implemented in three geographic areas: Ein El Hilweh, Badawi and Naher Al Bared camp.

Achievements of this project:

Indicator one: 70 % of students in support education classes will continue their education at the end of each scholastic year.

	EEH		Beddawi		Burj al Barajneh	
	Succeeded	Failed	Succeeded	Failed	Succeeded	Failed
No. of students in Remedial	41	0	46	0	31	0

The above table shows that all the students continued their scholastic year successfully and they can pass to the following classes.

This result was achieved through:

Providing a support education in all subjects for students from grade one to grade eight, where we targeted 118 students in our three centres during the year without any preference based on their nationalities.

These students were Selected based on the following Criteria:

- They are registered on the schools for the 2021-2022 scholastic year.
- Children are facing difficulties in during their academic achievement.
- Students' grades from one to grade eight.
- Students who are living in Ein El Hilweh, Badawi ,burj al barajni camp and the surroundings regardless of nationality, gender, and level of study.

Indicator two: 60 % Dropout children are abled to read and write Arabic, Math, and some English words.

67 % of students in the alternative education classes in the 3 camps improved their education skills.

At the end of the academic year, we recorded the following statistics:

- ✓ 74 % of the students passed the Arabic post-test which meant the percentage of success had increased by 41 % from the pretest (Entrance exam).
- ✓ 73% of the students passed the English post-test which meant the percentage of success had increased by 46% from the pretest (Entrance exam)..
- ✓ 71% of the students passed the Math post-test which meant the percentage of success had increased by 60% from the pretest (Entrance exam).

This result was achieved through:

Providing alternative education which based on "learning by doing "and relying on visual and audible tools for school dropped out students in Arabic and English language in addition to mathematics.

Where we targeted 91 students in our three centres during the year without any preference based on their nationalities.

These students were Selected based on the following Criteria:

- They were dropped out from their schools at least from two years or they never enrolled in any formal educational programs.
- Their age is between 6 to 12 years old.
- Students who are living in Ein El Hilweh, Badawi ,burj al barajni camp and the surroundings regardless of nationality, gender.

Indicator three :50 % of the beneficiaries of the vocational training were empowered with the appropriate skills that will contribute to increasing their chances of employment in the future.

23 (6 Female, 15 Male) of the school dropouts their age between 16 to 24 years old were participated in this activity and through contraction with Workers and Human and Professional Development Academy as specialist and technical centre in providing training on "Repair and maintenance of cellular devices".

61 % of the trainees were finished successfully the training course and got their training certificate.

The course includes.

- ✓ 15 training hours on basic information from the principles of electricity and electronics, mobile components, and mobile communication protocols.
- ✓ 45 training hours in Software and Hardware.

Indicator four: children acquire a range of skills related to their rights, which will enable them to defend their rights and participate more in shaping their future lives.

Children acquired a range of skills related to their rights through implementing various activities related to their rights including the right to health, family life, education, play and recreation, and dignity which

enable them to defend their rights and participate more in shaping their future lives and that through engaging them in interactive games, drawings and paintings as well as expressing their opinions about their rights via discussing children rights' topics, commemorating international days (Against Racial discrimination, Education for All), writing texts and drawing expressive pictures.

Month	Number of Activities per month	Average number of participated children
Dec 2021	5	99
January22	8	115
Feb	11	84
Mars	10	71
April	5	129
May	4	123
July	6	96
August	4	100
Sept	3	122
October	4	64
Nov	3	124
Total	63	102

Ghina Al Zeer, 12 years old, Syrian refugee, said about the activities:

Through the project I learned that all human beings have equal rights such as living in good place, educating well, and getting good medication.

I enjoyed activities we carried out in which it provided us with knowledge and information in addition of helping us to aware others in the community about our rights and that through reviving the international day against racial discrimination which helped me a lot in accepting myself as it is and be proud of my nationality.

Indicator five: 200 children will have fun and play in a safe place.

The summer activities launched at the beginning of August and continued for 3 weeks. These activities targeted not only the students in both project sections (alternative and support classes) but also opened for all children in the camps to be registered in it.

The importance of these activities is that they helped the children to invest their free time, enhancing their imagination, building up social relations, Reducing the psychological stress that may result from staying at home throughout their summer vacations in light of the lack of safe places for entertainment and play inside the camps, and the inability of families in the current economic conditions to carry out any family activities with their children.

Which distributed into three main activities: sport, life skills, craft, and recreational activities.

	Sport activities	Life skills activities	Craft and recreational activities
No of activities	19	18	20

In addition to two outdoor activities.

All these activities targeted 194 children as average in the three areas: Ein El Hilweh, Badawi and Burj Al Barajni camp.

Indicator six: at least 50 % of the children show improvement in their psychological life results in changing their behaviour and thoughts.

52 students in all camps who were followed up with the psychologist in individual sessions.in where 56 % of them who were given special psychological sessions show improvement in their psychological life that been reflected in changing in their behaviour and thoughts.

During the project period the following sessions were implemented:

	Group sessions	Individual sessions	Life skills sessions
No of sessions	35	156	51

Indicator seven: children and their parents will become more aware of the importance of education and will be encouraged to keep their children learning to protect them from child labour and early marriage.

This indicator was focusing on spreading awareness in the local community starting from the children themselves and their parents to be aware about the value of education and its impact and that through implementation of series of awareness sessions and social media mobilization and advocacy campaign.

- ✓ Nine awareness sessions were implemented with children about topics of COVID 19 , school drop-out , bullying , personal hygiene, climate changes , Environmental health .
- ✓ In addition to 37 sessions were implemented with parents about Child Labor , Importance of learning, Covid 19 , Children Rights , Gender Equality , Mental Health , Cholera , Adolescence Period , personal hygiene.

98 % of the parents participated in the above sessions said that they benefited from the knowledge and information presented in it and through sharing experiences between them during these sessions.

- Social media campaign " مستقبلك بإيدك " , " your future is in your hand":

This campaign was launched on the beginning of November 2022 to highlight the value of education in society's development and children's protection from numerous social issues such as child labor, early marriage, and harassment, and to develop their abilities.

The campaign consisted of six videos and ten posters. The posters were about child labour, early marriage, harassment, and learning through alternative and creative methods.

In addition to creating games, quotes, and questions pertinent to our cause throughout this month.

These materials were published gradually on our Facebook page and been shared on parents what's app groups.

Technology in Education:

Incorporating more learning methods increases the likelihood that all students will grasp the concept that teacher teach.

So NUWAT used in its educational process the online videos, audios, interactive applications.

Taking advantage from having 40 tablets provided by the Breatue foundation at the end of October 2019.

Initiatives:

Eid clothes (Keswet Eid):

As every year, and at the end of Ramadan, with support and fund from individual the local community, and clothing shops inside the camps, Nuwat launched initiative of the Eid clothes, to bring joy happiness, and hope to the children in camps who are suffering with their families from a lack of financial resources and missing their childhood.

In Badawi center, Nuwat able to provide new clothes for 60 children.

While, in Borj al Barajni center, 120 families benefited from distribution of the second-hand clothes and new clothes.

Sharing together (Naqsumha sawa) campaign:

This campaign was launched for the first time in 2021, which aim to serve the most vulnerable families in al Badawi camp.

This campaign is based on donation from the able families in the camp or in coordination with other NGO.

Through this campaign, Nuwat **in al Badawi center** was able to distribute 100 hundred meet parcels for needed families, and that was in coordination women's programs association.

While, In Burj al Barajni center About 75 families benefited of hot meals and food parcels distributed by the association to the most vulnerable families in our centre.

Substance abuse campaign:

UNRWA and initiate association in coordination with the local NGOs in Palestinian refugees camps launched during June 2022 the substance abuse campaign under the title of " بلاها بلا بلاها " to aware youth and children about the impact of all kinds of substance .

12 Activities were implemented by Nuwat association within this campaign these activities been varied in its kinds and at the same time it targeted varies groups (children, women, men, elder people).

Additional activities:

-One awareness session about personal hygiene for 40 children in Badawi camp.

- "our environmental is cleaner "is the title of an environmental and employment project been carried out in contraction with Jafra association to employ 30 youth to clean the lanes of al Badawi camp for one month.

-Reviving all the international and national days in all Nuwat centers in camps.

Challenges:

- Economic crisis and restrictions of banks .
- unstable security situation within the camps and the sporadic clashes.
- non equal development between Nuwat Branches at level of building, instruments, and number of staffs.
- As a result of the economic situation in Lebanon, the needs of refugees to the services we provided had increased compared to the limited resources we been had.
